

# elco

## **NEXTRON**

### **N6.2400 GL-EF3**

## INNOVATION

Since its foundation in 1928, ELCO has always been a specialist in burners conception and manufacturing. By linking a strong innovative ability to a continued developing drive, ELCO has designed high performing and reliable burners as well as corresponding services throughout the years, and is today one of the leaders in the field of combustion technology.

## RESEARCH AND DEVELOPMENT

ELCO always looks for the best technologies and continues to develop new ones to improve the efficiency of its solutions.

Our R&D Laboratories are committed to develop innovative technological solutions allowing to:

- optimise the running of the installations lowering costs;
- offer service friendly products easy to maintain;
- preserve the environment lowering acoustic and pollutant emissions.

## OUR PRODUCT RANGE

Our experience at combustion technology available in a complete range of burners from 11 kW to 80 MW:

**VECTRON**  
11 - 2300 kW

**PROTRON**  
17 - 550 kW

**NEXTRON**  
250 - 11200 kW

**EK EVO**  
250 - 13500 kW

**N**  
1300 - 22000 kW

# CUTTING-EDGE BURNERS FOR HEATING AND INDUSTRIAL APPLICATIONS

## KNOW-HOW

Your contacts at ELCO and its partners are recognised experts with years of experience. Our worldwide support starts from concept creation to planning, design and project management up to commissioning and on-going operation of the plant throughout its life cycle. As an ELCO customer, you can rely on your installation to perform reliably. Our guarantee is backed up by a service that sets standards in our field.

## WORLDWIDE NETWORK

Capitalising on more than 90 years of work experience, ELCO has been capable to build up loyal partnerships and today can count on reliable Partners all over the World. Combining an instinctively global perspective with a genuinely multicultural approach ELCO today offers you skilled and experienced experts available in more than 70 Countries.

### In Europe

3 production plants

6 commercial branches

Strong commercial presence through a network of reliable dealers and partners

### Worldwide

2 Sales Offices in Russia and China

Distribution in over 70 Countries

**HO/GHO-TRON**  
68 - 17000 kW

**RPD**  
500 - 80000 kW

**EK-DUO**  
600 - 16000 kW

**D-TRON**  
230 - 34000 kW

# MONOBLOCK

## All NEXTRON burners feature:

- Integrated switch cabinet (ISC System) with modular concept complete for an easy installation with: BT300 control box (MDE2 System and display), fan motor direct start-up, enumerated connection terminals (available as options: power regulator, speed controller, O<sub>2</sub>/CO regulator and BUS interface)
- Innovative design allowing easy access to burner components for fast start-up and reduced maintenance time and space
- Unique air intake channel design (patented) to reduce acoustic levels (Low Noise System)
- Products are in compliance with EN676 and EN267 European standards and with the following directives: 2014/35/EU Low Voltage Directive, 2014/30/UE EMC Directive, 2016/426/UE Gas Appliances Directive, 2006/42/EC Machinery Directive, 2011/65/EU RoHS2 Directive

# NEXTRON

## Monoblock burners from 250 kW to 11200 kW in gas, light oil and dual fuel

- The original design of NEXTRON range is the result of a successful integration between burner and ELCO technologies
- The NEXTRON burner range offers high acoustic comfort thanks to the Low Noise System. The patented air intake channel is carefully designed to achieve an acoustic level significantly lower than 80 dB(A) up to 10 MW

NATURAL

DUAL FUEL

LIGHT OIL

# NEXTRON \_ N6.2400 GL-EF3

- Operation: two stage progressive/modulating electronic in gas and in oil;
- Emission class: Low NOx class 3 in gas (<80 mg/kWh) according to EN676, Low NOx class 3 in light oil(<120 mg/kWh) according to EN267

## WORKING DIAGRAM

## TECHNICAL DATA

Minimum power output (kW)	280
Maximum power output (kW)	1920
Minimum gas pressure (mbar)	50
Maximum gas pressure (mbar)	500
Fan motor (kW)	3
Protection level	IP41

## OTHER AVAILABLE CONFIGURATIONS

- Permanent ventilation;
- 60 Hz version;
- Remote display;
- LPG firing;
- Hinge flange

## OVERALL DIMENSIONS
